History:

Founded in 2017, SPSS Security is Ontario's youngest and fastest-growing privately owned security company. We are uniquely positioned in the market as a result of having the experience, local resources, and capabilities of the small and large local providers while upholding the same core values which SPSS was founded on.

Our mission to ensure safety through the protection of our client's assets, property, and lives while maintaining our commitment and reliability.

Pricing Strategy:

Appropriate. Cost-Effective and Flexible Mitigation Measures

The next stage is to consult with our client to prioritize, estimate costs, and implement risk mitigation measures, allowing for adaptation if needs change in the future. Changes can come in the form of new threats or, as in the case of commercial office buildings, new tenants whose security requirements depend on their line of business. A government department, for example, may face different threats from those facing a financial institution. Once our clients' risks and operational requirements are evaluated, we advise on the most appropriate deterrents, which include both physical and electronic

Leadership Team

We are built on the strength of our people. In every region where we operate, our leaders guide the mission, drive the vision, and uphold our collective beliefs.
